

Sunglasses Template

Use this template to trace sunglasses onto your self-portrait. In the reflection of your sunglasses draw events, activities, and your dreams for the future!

ASSEMBLY INSTRUCTIONS

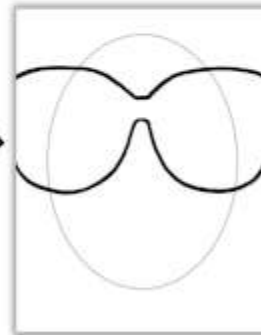

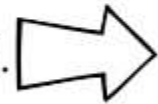

1. Trace the sunglasses so that they are hanging off onto a portrait piece of white card stock or construction paper.

See how to place the sunglasses, using the picture to the left. You want them to hang off of the page a little.

TRACE the part of the sunglasses that are on the page. This will help you when deciding on where to put your nose, face, hair, and other features.

2. Draw a light oval with a pencil.

3. Complete your drawing by adding the details to your drawing! You will want to add your nose, hair, neck, and your shoulders. Get creative and add jewelry and hair accessories!

4. Add color! Be sure to color everything for a big impact!
